```
1  # Python Programming Internship - Week 1 Task 2
2
3  ## Project Title
4
5  Functions, Lists & Basic Data Handling
6
7  ## Objective
8
9  The objective of this project is to learn Python functions, list operations, and create a
   simple interactive command-line application.
10
11 ## Project Files
12
13 README.md
14
15 src/main.py
16
17 src/utlis.py
18
19 docs/explanation.md
20
21 tests/test_utlis.py
22
23 ## Features
24
25 * Add items to a list
26 * View all items
27 * Delete items from the list
28 * Exit the application
29
30 ## Concepts Used
31
32 * Functions
33 * Lists
34 * if-elif-else
35 * while loop
36 * User input
37
38 ## How to Run
39
40 Open the terminal and run:
41
42 python src/main.py
43
44 ## Learning Outcome
45
46 I learned how to create reusable functions, manage data using lists, and build a simple
   command-line application in Python.
47
```
